---

## PROFESSIONAL OBJECTIVES

---

I am looking to work and grow in a dynamic professional environment with an innovative organization that challenges me. I will graduate with a degree in Marketing with a minor in Psychology. My current internship with Cloud Cyber Network Organizations Artificial Intelligence (CCNOAI) requires me to convey the benefit of technological products to our clients and consumers. I will bring value to an organization based on my strong academic record, attention to detail, and relentless pursuit in discovering the why within the customer segment.

---
